(工具 Tools => 選項 Options => 編輯 Composition), 寄信完成後要改回原設定(Inline)

The screenshot shows the Thunderbird Options dialog box with the 'Composition' tab selected. The 'Forward messages' dropdown menu is open, showing 'As Attachment' as the current selection and 'Inline' as the selected option. The 'Add extension to file name' checkbox is checked. Other options include 'Auto Save every', 'Confirm when using keyboard shortcut to send message', and 'Check for missing attachments'. The 'HTML' section shows 'Font: Variable Width' and 'Size: Medium'. The 'Text Color' and 'Background Color' fields are visible. The 'Use reader's default colors' checkbox is checked. The 'Use Paragraph format instead of Body Text by default' checkbox is checked. The 'Configure text format behavior' button is visible. The 'Keywords...' button is also visible.
